ALUMINUM SHINGLES

Distinctive Beauty.
Exceptional Value.
Lifetime Protection.

Since 1968, Permalock aluminum shingles have been withstanding the test of time, protecting and beautifying the most important investment of many Americans – their home. For over seventy years, owners of Permalock aluminum shingles have added the joy of superior shingles to the distinctive beauty of their homes. Why? Because they were smart enough to let a lifetime

As you evaluate your roofing needs, we think you'll be impressed with the features and benefits of Permalock aluminum shingles. No other roofing product can offer the same combination of beauty, value, and protection. Our roof system is ideal for your home, your lifestyle, the security and peace of mind that comes from knowing you will never need to roof again.

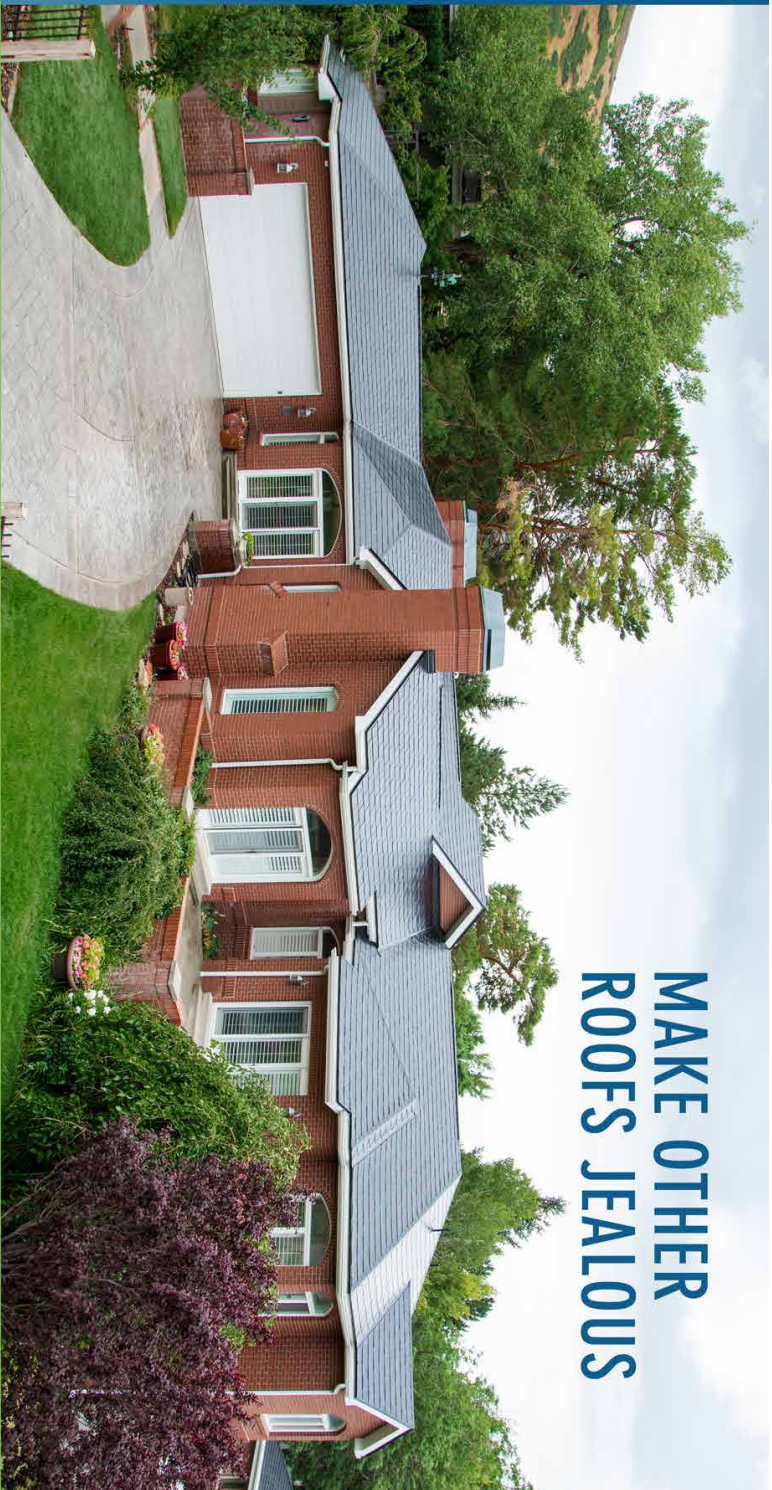

LIFETIME PROTECTION

Permalock aluminum shingles are backed with a 50-year limited warranty. This is the longest warranty in the roofing industry because manufacturers know the value of their warranty and consequently their potential liability greatly decreases over time. We have designed and manufactured our shingles to last a lifetime and our warranty conveys to you the confidence we have in our product.

We challenge you to compare our warranty to the warranty of any roofing product you are considering for use on your home. Our warranty is clearly superior because our shingles are superior. When you choose to have a Permalock aluminum shingle roof installed on your home, you get an end – once and for all – to your roofing worries.

EXCEPTIONAL VALUE

The true value of a roofing product must be measured by what it costs to protect your home over time. A Permalock aluminum shingle roof is an investment that will save thousands of dollars in future repair and replacement costs. Most homeowners can expect to replace their roof three times or more during their lifetime. Your

MAKE OTHER ROOFS JEALOUS

Permalock aluminum shingle roof will never need replacing, and will require little or no maintenance.

When you consider the money you will save in replacement and maintenance expenses, and how a beautiful lifetime roof will add to the value of your home, we think you will agree that our shingles are a "best buy."

DISTINCTIVE BEAUTY

Your roof can significantly impact the appearance of your home because it may comprise up to fifty percent of your home's exterior. The unique beauty of Permalock aluminum shingles will make your home stand apart from those around it. The enduring beauty, pleasing colors, and sharp, clean lines of a

Permalock aluminum shingle roof will give your home an eye-catching Permalock aluminum shingle roof that is as distinctive as your home.

Unlike other roofing products, Permalock aluminum shingles retain their beauty over time. Available and roof shingles will show disfiguring unsightly signs of wear and age after years in the elements. Your Permalock aluminum shingle roof will look like new for generations.

WHY ALUMINUM?

Aluminum has long been recognized as a material both lightweight and exceptionally strong. For these reasons, aluminum is used extensively in the aviation and automotive industries. Aluminum is also unusually weather-resistant. Unlike steel, it can't rust. Unlike wood or asphalt products,

it will not rot or deteriorate and will never lose strength with age. The unique characteristics of aluminum make it the ideal material from which to fashion a high-quality, permanent roofing system.
